

**CARTER HENNE**  
**President/Partner**

Born and raised in Central Florida, Sea & Shoreline co-founder and president Carter Henne has dedicated his career and life to environmental stewardship.

A graduate of the University of South Florida, in Tampa, Fla., Henne holds a Bachelor of Science in Biology. Mr. Henne started his career at the Florida Fish and Wildlife Conservation Commission's Stock Enhancement Facility where he was directly responsible for rearing spot fish and crustaceans for release into the wild. Following, he worked for Seagrass Recovery Inc., and quickly rose the ranks from field technician to Chief Science Officer and Project Manager where he led and executed numerous seagrass restoration projects.

Since joining Sea & Shoreline in 2014, Henne has directed dozens of aquatic restoration projects throughout the state of Florida. His specializations in seagrass aquaculture and restoration, biological monitoring, permitting, and hydrology, as well as his extensive experience transforming algae-based aquatic ecosystems into healthy, plant-based ecosystems, has earned him accolades and esteem in the scientific community for his innovative approaches and organizational leadership.

An outdoor recreation enthusiast, Henne enjoys fishing and boating during his free time with his wife Michelle.

**About Sea & Shoreline, LLC**

Sea & Shoreline is the foremost expert in transforming corrupted aquatic environments into healthy, thriving, and sustainable ecosystems. Based in Florida, Sea & Shoreline has completed more aquatic restoration projects than any company in the world using scientifically validated processes and patented technologies. Sea & Shoreline operates its own seagrass aquaculture nursery and provides services that include dredging; seagrass/submerged aquatic vegetation restorations; propeller scar restorations; oyster, coral and artificial reefs; living shorelines; vegetated retaining walls; wetland plantings; and seagrass mitigation banking.
