

**JIM ANDERSON  
FOUNDER/PARTNER**

Jim's passion for coastal conservation is unparalleled. For over 20 years, he has diligently worked to restore aquatic environments, becoming the undeniable leader in seagrass cultivation techniques, mechanical planting technologies, and propeller scar restoration.

With the inception of his corporations Cockroach Bay Users Group (CBUG) and Seagrass Recovery, Inc., he led his team in creating numerous innovative techniques for restoring seagrass including two seagrass planting vessels, patented GrowSAV™ Herbivory Exclusion Devices, seagrass nutrition stimulants, and the only scientifically studied and peer reviewed Sediment Tube used for propeller scar restorations.

In 2014, he founded Sea & Shoreline, LLC after selling his former company, Seagrass Recovery, Inc. He retained intellectual property rights and re-centered his efforts true habitat restoration, and founded Sea & Shoreline LLC.

Mr. Anderson operates Sea & Shoreline's aquaculture seagrass nursery, and has been directly responsible for some of the largest and most successful seagrass projects to date! Mr. Anderson specializes in growing seagrasses in complex marine environments.

**About Sea & Shoreline, LLC**

Sea & Shoreline is the foremost expert in transforming corrupted aquatic environments into healthy, thriving, and sustainable ecosystems. Based in Florida, Sea & Shoreline has completed more aquatic restoration projects than any company in the world using scientifically validated processes and patented technologies. Sea & Shoreline operates its own seagrass aquaculture nursery and provides services that include dredging; seagrass/submerged aquatic vegetation restorations; propeller scar restorations; oyster, coral and artificial reefs; living shorelines; vegetated retaining walls; wetland plantings; and seagrass mitigation banking.
