

SEA & SHORELINE COMPANY FACT SHEET

ABOUT US

Sea & Shoreline, LLC is a privately held, Florida-based aquatic restoration and marine construction firm founded in 2014 that specializes in transforming corrupted aquatic environments into healthy, thriving, and sustainable ecosystems.

WHAT WE DO

Sea & Shoreline has completed more aquatic restoration projects than any company in the world using scientifically validated processes and patented technologies. These projects help to enhance water quality, oxygenate the water column, cycle nutrients, stabilize sediment, sequester carbon, and provide food and habitat for fish and animals.

COMPANY DIFFERENTIATORS

- Seagrass Aquaculture Nursery – The company maintains its own nursery with a variety of over 150 seagrasses that are ready to plant.
- Technologies – Sea & Shoreline has developed and patented unique, scientifically proven technologies and processes that help to ensure the long-term success of restoration projects.
- Experience - The Executive Team have nearly two decades of on-the-job experience restoring aquatic habitats
- Sustainability - Sea & Shoreline projects have stood the test of time and have successfully maintained themselves as healthy ecosystems. We guarantee it!
- Partnerships - The company has built long-term partnerships with state and federal organizations as well as other environmental firms that aid in funding, permitting, contracting, and site preparation.
